In addition to the interest free facilities, 3dee loans offer extended payment plans, allowing your patients to spread the cost of the higher value treatments over a period from 12 to 60 months, at a competitive APR. With payment upfront at the start of treatment the practice benefits from improved cash-flow, and has no risk of bad debt!

With the flexibility of a patient loan facility, 3dee enables your patients to accept treatment options they may otherwise have declined, helping to increase your turnover, and therefore your practice profitability.
